

Project Warranty Certificate

For completion and signature by Terrashield. This Certificate identifies the approved coverage for one order and project. Read it with the incorporated TS-WAR-100. A blank or unsigned Certificate grants no coverage.

1. Holder, order and project

Certificate ID (Required)

Issue date (Required)

Original purchaser (Required)

Registered owner (Required)

Project installation address (Required)

Accepted order / invoice (Required)

Purchase and coverage start date (Required)

Installation completion date (Required)

Registration received / approved dates (Required)

2. Covered material

Profile and substrate (Required)

Coating system / finish / colour (Required)

Gauge and decimal thickness (Required)

Batch / coil / bundle references (Required)

Covered quantity and unit (Required)

Eligible finish class: 40 or 25 years (Required)

Covered project areas, orientation, exposure and location restrictions (Required)

Material qualification record and incorporated documents / revisions (Required)

Privacy: Use project and warranty information only. Redact unrelated private details. Do not send government ID, banking/card details, medical information or passwords. Records are used for warranty administration, not marketing consent. Contact info@terrashield.ca about privacy or an appropriate route for necessary sensitive evidence.

Submit to info@terrashield.ca and retain a copy with proof of sending.

Certificate: Coverage Schedule

Complete every attribute. Enter NOT COVERED where no grant applies. State numeric colour/chalk limits, assessment methods and end dates; one attribute's period does not determine another's. Attach an identified signed schedule if needed.

3. Coating adhesion / film integrity

Years (Required)	End date (Required)	Covered condition, limits and assessment method (Required)

4. Colour change (ASTM D2244)

Years (Required)	End date (Required)	Covered condition, limits and assessment method (Required)

5. Chalking (ASTM D4214)

Years (Required)	End date (Required)	Covered condition, limits and assessment method (Required)

6. Corrosion-perforation of listed substrate

Years (Required)	End date (Required)	Covered condition, limits and assessment method (Required)

Colour reference sample, sampling locations and procedure / schedule reference (Required)

Required care interval and project-specific restrictions (Required)

Remedy / general-terms amendment, if expressly agreed; otherwise TS-WAR-100 (Required)

Incorporated terms: TS-WAR-100, Issue 01, Revision 04. General conditions remain unless a signed amendment identifies the changed clause. Mandatory statutory rights and the original period are preserved.

Terrashield authorized signatory: printed name (Required)	Signature (Required)	Date (Required)

Warranty Holder acknowledgment: printed name (Required)	Signature (Required)	Date (Required)

Privacy: Use project and warranty information only. Redact unrelated private details. Do not send government ID, banking/card details, medical information or passwords.
