

— TRAPEZOIDAL RIBBED SIDING | TS-S200-LP

# TerraLap 200

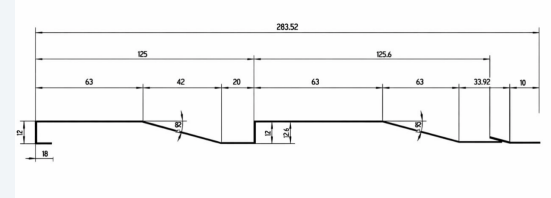

Broad geometry. Strong visual rhythm.

A versatile wide-rib steel profile for confident residential, commercial, industrial and agricultural exteriors.

**BUILT TO SCALE ACROSS PROJECT TYPES**

## Bold, durable and easy to specify.

TerraLap combines a broad face with a consistent rib pattern for a clean industrial-modern finish. It works as primary cladding or a contrasting accent across projects of every scale.
